

# Our Challenge, Your Opportunity

Start your career with us.

## Our Challenge, Your Opportunity

Our company has operations in the United States, Egypt's Western Desert and the United Kingdom's North Sea and exploration opportunities offshore Suriname and the Dominican Republic.

Since 1954, our team has been unified by our values, our commitment to building shareholder value, and our culture, which empowers every employee to make decisions and achieve the company's goals.

Our global team is brought together by a sense of ownership and the knowledge that the best answers win. We strive to deliver shareholder returns while helping to fulfill global energy needs and developing innovative, more sustainable ways to operate. We aim to be a community partner in our areas of operation, focused on protecting the safety and health of our employees, communities and the environment.

## OUR VALUES

### SAFETY

We **never compromise** on safety.

### INTEGRITY

We conduct our business with **respect, honesty** and **dignity**.

### PEOPLE

We recognize people are the **foundation** that drives our success.

### STEWARDSHIP

We have an unwavering commitment to **responsible** operations.

### INGENUITY

We set aggressive goals, question the status quo, and seek top performance through **continuous improvement**.

### Our Purpose

Today, the world faces a dual challenge:

To meet growing demand for energy and to do so in a cleaner, more sustainable way. We believe society can accomplish both, and we strive to meet those challenges while creating value for all our stakeholders.

### Our Vision

To contribute to human progress by responsibly helping meet the world's oil and gas needs.

### Work-Life Balance and Benefits

### Apply Now

Apply for an internship or full-time position by following these steps:

1. Apply for the position with your university career center.
2. Visit [apacorp.com/careers](http://apacorp.com/careers) to view available full-time positions.

### Internships

Apache offers internship opportunities in a variety of technical and professional disciplines that provide an up-close introduction to the oil and gas industry. Interns will spend time working with some of the best in the business on real projects in the office or the field. Intern mentors will provide an overview of assignments and will work to ensure a successful and rewarding experience. The work interns complete during the internship will help prepare them for a rewarding career. Apache internships are paid.
