

Communities

From Midland to Cairo and Paramaribo to Aberdeen, we operate in unique communities around the globe. Through our community engagement, we aim to build **long-standing partnerships** that facilitate meaningful and positive impacts.

Our Three Focus Areas for Community Social Investment

Community Well-being

Addressing acute social needs within our geographically and culturally diverse operational footprint.

Environmental Stewardship

Maintaining our legacy commitment to balancing environmental stewardship and conservation with responsible energy development.

Access to Energy

Creating opportunities for underserved communities that lack access to reliable, affordable energy.

Community Well-being

15,000+

girls in rural Egypt have learned to read and write through Springboard Girls Schools since we founded the program in 2004.

1,000

disadvantaged children were provided coats in partnership with U.K. grant-giving charity, Cash for Kids, to see them through the winter.

360

beds are available to women and children at the STICRIS women's shelter in Suriname, up from a 240-bed capacity. We supported the rebuilding of the shelter in 2020.

102

U.S. university students supported with scholarships, coaching, networking and mentoring resources, through the Posse Foundation.

50

homes rebuilt in partnership with the Egyptian Ministry of Petroleum and Mineral Resources in Khor Awada as part of the Aswan Relief Initiative.

Springboard Girls Schools

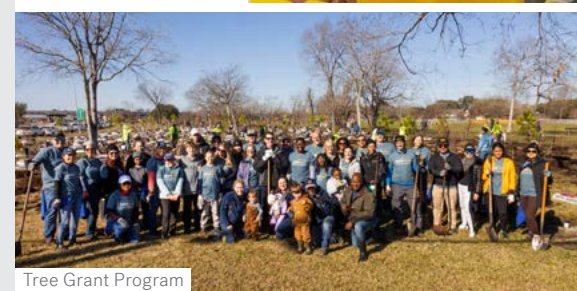

Environmental Stewardship

Since 2005, the Apache Corporation Tree Grant Program has provided more than **5 million trees** to over 900 nonprofit charitable partners and government agencies in the U.S.

Collaborating with the Pecos Watershed Conservation Initiative to address habitat restoration and management of riparian and grassland systems, species intervention and species information across **11,500 acres of grasslands**.

Tree Grant Program

Access to Energy

Partnering with the Clean Cooking Alliance (CCA), a U.N. Foundation nonprofit, who is working to address **universal access to clean cooking fuels**.

Donated generators to two remote communities in the interior of Suriname where electricity access was unavailable.

Generators delivered to Suriname
